# Safety Data Sheet (SDS)

Effective Date: February 1, 2021

--- In this revision, only our company information (address, Tel., Fax., E-mail) changed. No other change in this document. ---

# 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND COMPANY/UNDERTAKING

**Material Name** : AEROSHELL CALIBRATING FLUID 2

Recommended Use : Aviation lubricatingoil. Aviation fuel calibrating fluid.

: Other than those above. Restricted Use Manufacturer/Supplier : Shell Lubricants Japan K.K.

1-11-1 Marunouchi, Chiyoda-ku, Tokyo, 100-6212 Japan

Telephone/Fax : Refer to end of this document.

Emergency Telephone: Refer to end of this document. (Japanese office hours only)

Number Quality Assurance Division

**SDS Code** : 410062

#### 2. HAZARDS IDENTIFICATION

: Flammable liquids: Category 3 GHS Classification

Skin corrosion/irritation: Category 2

Specific target organ toxicity, single exposure: Category 3(Narcotic effects)

Specific target organ toxicity, repeated exposure: Category 1(central nervous system)

Aspiration hazard: Category 1

Hazardous to the aquatic environment, chronic toxicity: Category 2

# **GHS Label Elements**

Symbol(s)

**Signal Words** Danger

**Hazard Statement** H226: Flammable liquid and vapour

H315: Causes skin irritation

H336: May cause drowsiness or dizziness

H372: Causes damage to central nervous system through prolonged or repeated exposure

H304: May be fatal if swallowed and enters airways H411: Toxic to aquatic life with long lasting effects

### **GHS Precautionary Statements**

: P210: Keep away from heat/sparks/open flames/hot surfaces. No smoking. Prevention

P233: Keep container tightly closed.

P241: Use explosion-proof electrical/ventilating/lighting/etc. equipment.

P242: Use only non-sparking tools.

P243: Take precautionary measures against static discharge. P260: Do not breathe dust/fume/gas/mist/vapours/spray. P261: Avoid breathing dust/fume/gas/mist/vapours/spray.

P264: Wash hand thoroughly after handling.

P270: Do not eat, drink or smoke when using this product. P271: Use only outdoors or in a well-ventilated area.

P273: Avoid release to the environment.

P280: Wear protective gloves/protective clothing/eye protection/face protection.

P301+P310: IF SWALLOWED: Immediately call a POISON CENTER/doctor/physician. Response

P304+P312: IF INHALED: Call a POISON CENTER or doctor/physician if you feel unwell.

P332+P313: If skin irritation occurs: Get medical advice/attention.

P314: Get Medical advice/attention if you feel unwell. P301+P331: IF SWALLOWED: Do NOT induce vomiting.

P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P302+P352: IF ON SKIN: Wash with plenty of water and soap.

P303+P361+P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing.

Rinse skin with water/shower.

P362+P364: Take off contaminated clothing. And wash it before reuse.

P370+P378: In case of fire: Use suitable media (see details on this SDS) to extinguish.

P391: Collect spillage.

P403+P235: Store in a well-ventilated place. Keep cool. Storage

P405: Store locked up.

: P501: Dispose of contents/container to appropriate waste site or reclaimer in accordance Disposal

with local and national regulations.

Unclassified Hazard : Please see Section 4 - 8 before use for Prevention/Response/Storage/Disposal.

Used oil may contain harmful impurities. Information

Substance or Mixture : Mixture

**Chemical Description** Calibrating fluid. Component Information Petroleum hydrocarbon. **Chemical Formula** Not possible to define.

**CAS** registry number Trade secret

Additional Information : The highly refined mineral oil contains <3% DMSO-extract, according to IP346.

Pollutant Release and Transfer : Not applicable Register (PRTR) Law

**Industrial Safety and Health** 

: Labeling(Delivery of Documents): Kerosine 100%

Dangerous goods: Flammable goods

**Poisonous and Deleterious Substance Control Law** 

: Not applicable

**Classification of components** according to GHS

: [Chemical Identity/Hazard Class (category)/Hazard Statement/Conc.]

Kerosine(1)/Flam. Liq.3, STOT SE 3, STOT RE 1, Asp. Tox. 1, Aquatic Chronic

2/H226,H336,H372,H304,H411/50-55%

Kerosine(2)/Flam. Lig.3, Skin Irrit. 2, STOT SE 3, Asp. Tox. 1, Aquatic Chronic

2/H226,H315,H336,H304,H411/50-55%

The specific chemical identities and percentages of composition have been withheld as trade secrets.

#### 4. FIRST AID MEASURES

**General Information** 

: Not expected to be a health hazard when used under normal conditions.

Inhalation : Remove casualty to fresh air and keep at rest in a position comfortable for breathing. Cover with blanket to keep warm and rest in a quiet surrounding. Seek immediate

medical advice and attention.

**Skin Contact** : Wash skin with large amount of water using soap.

: Rinse cautiously with clean water for several minutes. Remove contact lenses, if **Eye Contact** present and easy to do, and continue rinsing. After rinsing for a minimum of 15

minutes, seek medical advice and attention.

Ingestion : Without inducing vomiting, call a doctor for treatment. If mouth has been dirtied, clean

with water.

**Most Important** 

Symptoms/Effects, Acute

& Delayed

**Immediate Medical** Attention, Special

**Treatment** 

: If swallowed, may irritate mucous membrane of stomach and induce vomiting. Inhalation if mist may cause feeling ill. Skin contact and eye contact may cause

irritation.

: Treat symptomatically. Call a doctor or poison control center for guidance.

#### 5. FIRE FIGHTING MEASURES

Clear fire area of all non-emergency personnel.

Suitable Extinguishing

Media

: Concentrated strong liquid in mist and powder forms, carbon dioxide and foam. Use powder and carbon dioxide may be used small fires only. Effective to use foam to

shutdown the air in a large fires.

**Unsuitable Extinguishing** 

: Do not use water in a jet.

Specific Hazards Arising

from Chemicals

: Hazardous combustion products may include: A complex mixture of airborne solid and liquid particulates and gases (smoke). Carbon monoxide. Unidentified organic and

inorganic compounds

Fire fighting instructions

: Water the surrounding equipment to cool them down. Cordon off the affected place

and its vicinity to all, except the concerned parties.

**Protective Equipment & Precautions for Fighters**  : Ensure to wear protective equipment and approach from windward.

#### 6. ACCIDENTAL RELEASE MEASURES

Avoid contact with spilled or released material. For guidance on selection of personal protective equipment see Section 8 of this SDS. See Section 13 for information on disposal. Observe the relevant local and international regulations.

**Personal Precautions, Protective Equipment and Emergency Procedures** 

: Avoid contact with skin and eyes. Prepare suitable equipment and materials.

**Environmental Precautions** 

: Use appropriate containment to avoid environmental contamination. Prevent from spreading or entering drains, ditches or rivers by using sand, earth, or other appropriate barriers. In event of entering in the sea, extend oil fences to prevent from spreading, and sop up with absorbent materials. Use chemicals and/or detergents, they must satisfy technical standards as set by the Ministry of Land, Infrastructure and

Transport / Ministry of the Environment.

**Methods and Material for Containment and Clean** 

: Promptly remove all ignition sources and stop leakages. In a small leakage, absorb and recover by use of soil, sand, sawdust and waste clothes. In a large leakage, cordon off the danger zone, prevent from entering and enclose it with sand bank and

Up

**Additional Advice** 

stop outflow. Cover liquid surface with foam, and recover liquid into containers. : Local authorities should be advised if significant spillages cannot be contained.

# 7. HANDLING AND STORAGE

**HANDLING** 

**Technical Measures** : In handling this material over the allocated volume, ensure approval to meet requires

of the laws. Keep away from heat, sparks, open flames, hot objects. No smoking. Take measures against static discharge. Ensure to wear clothing and shoes made of conductive materials. When fixing or processing machine, it carries out after removing dangerous objects completely. NEVER suck up (siphoning) this material by mouth. Wear suitable protect equipment if skin or eye contact may cause. Seal containers

hermetically without handling in violent such as falling, dropping, or jolting.

**Ventilation Precautions** 

**Precautions for Safe** 

Handling **STRAGE** 

see Section 8

Use under normal temperature. Prevent from mixing water and impurity. Avoid contact

with halogens, strong acids, alkali and oxidizing materials.

**Conditions for Safe** 

Storage

: Keep containers tightly closed and in a cool, well-ventilated place away from direct sunlight. It is recommended to lock up storage area. Use properly labelled and closeable containers. Avoid heat, sparks, open flame and static accumulation.

**Technical Measures Precautions for Safe** 

Stroage

: All electrical appliances shall be explosion-proof types, and they all must be earthed. : Avoid contact and storage in same place with halogens, strong acids, alkali and

oxidizing materials.

Recommended Materials : Storage in original containers. Do not pressurize empty containers. May cause

rupture. Do not weld, heat up, drill or cut containers. May ignite the residue and cause

explosion.

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

If the American Conference of Governmental Industrial Hygienists (ACGIH) value is provided on this document, it is provided for information only.

Equipment Seal or install ventilations for mist occurs. Install eye shower and body shower near

working site.

: 5mg/m3 (Oil mist, mineral)

**Standard Concentration** 

Control

: Not specified

**OSHA**, Permissible **Exposure Limits (PEL)** 

**Occupational Exposure** 

Limits

: Japan Society for Occupational Health(2012)<sup>(1)</sup> 3mg/m<sup>3</sup> (Oil mist, mineral)

ACGIH(2012) TWA[Inhalable fraction.](2) 5mg/m<sup>3</sup> (Oil mist, mineral), 100ppm(Stoddard

solvent)

Skin protection not ordinarily required beyond standard issue work clothes. **Protective Equipment** 

**Respiratory Protection** : No respiratory protection is ordinarily required under normal conditions of use. Use

appropriate equipment in response to the circumstances.

**Hand Protection** : Use oil-proof protective hand gloves under prolonged or repeated skin contact.

**Eye Protection** : Wear safety glasses or full face shield if splashes are likely to occur.

Skin and Body **Protection** 

: Use oil-proof/long sleeved clothing under prolonged usage.

**Appropriate Sanitary** : Remove immediately all contaminated clothing. Contaminated clothing must be

Measures: laundered before reuse.

#### 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state : Liquid at room temperature.

Colour : Colourless. Clear.

Odour Characteristic mineral oil. **Odour threshold** Data not available. рΗ Not applicable.

Pour point Data not available. **Initial Boiling Point** Expected >150°C Flash point 40°C (PMCC) **Evaporation rate** Data not available. Flammability (solid, gas) Not applicable.

**Upper / lower Flammability or Explosion limits** Typical 1 - 7 %(V) (based on mineral oil)

Vapour pressure Data not available.

Vapour density Data not available. Expected >1 **Density** Approx. 0.77g/cm3 (15°C) Solubility Water: Negligible.

n-octanol/water partition coefficient (log Pow) : Data not available.

: Data not available. Expected >320°C Auto-ignition temperature

**Decomposition Temperature** : Data not available.

#### 10. STABILITY AND REACTIVITY

**Chemical Stability** Stable under normal condition.

**Hazardous Reactivity** Avoid contact with strong oxidizing agent.

**Conditions to Avoid** Avoid contact with halogens, strong acids, alkalis, and oxidizing materials.

**Incompatible Materials** Data not available.

**Hazardous Decomposition**: Hazardous decomposition products are not expected to form during normal storage.

Generates smoke, carbon monoxide, sulfurous acid gas etc. during combustion. **Products** 

#### 11. TOXICOLOGICAL INFORMATION

**Basis for Assessment** Information given is based on data on the components and the toxicology of similar

products.

Unless indicated otherwise, the data presented is representative of the main component of a whole product, rather than for individual component(s). Individual components

contained above cut-off value is described on Section 3.

1 Oral  $LD_{50} > 5000 \text{ mg/kg}$ ,  $Rat^{(3)}$ **Acute Toxicity** 

2 Dermal  $LD_{50} > 2000-5000 \text{ mg/kg}$ , Rabbit<sup>(3)</sup>

3 Inhalation(Vapour) Data not available

4 Inhalation(Mist) Low toxicity:  $LC_{50} > 1-5 \text{ mg/l}$ , 4h,  $Rat^{(3)}$ 

Skin Corrosion/Irritation

**Serious Eye** Damage/Irritation Respiratory or Skin : Expected to be slightly irritating. (3) : Expected to be slightly irritating. (3)

Sensitisation

: For respiratory and skin sensitisation:, Not expected to be a sensitiser. (3)

**Germ Cell Mutagenicity** 

Carcinogenicity Reproductive and : Not considered a mutagenic hazard. (3) : No carcinogenicity classification. (3) : Not expected to impair fertility., Not expected to be a developmental toxicant. (3)

**Developmental Toxicity** 

Specific target organ toxicity - single exposure : Expected to be a hazard depending on materials. (3)

Specific target organ

toxicity - repeated exposure

: Expected to be a hazard depending on materials (3)

: Classified as a hydrocarbon with kinetic viscosity ≤ 20.5mm2/s measured at 40°C. To **Aspiration Hazard** be reagrded as if they cause human aspiration toxicity hazard.

### 12. ECOLOGICAL INFORMATION

Ecotoxicological data have not been determined specifically for this product. **Basis for Assessment** 

Information given is based on a knowledge of the components and the ecotoxicology of

similar products.

Unless indicated otherwise, the data presented is representative of the main component of a whole product, rather than for individual component(s). Individual components

contained above cut-off value is described on Section 3.

Poorly soluble mixture. May cause physical fouling of aquatic organisms. Caution

Fish LL/EL/IL<sub>50</sub> 1-10mg/L(3) **Toxicity** 1-10mg/L(3) Crustacean LL/EL/IL<sub>50</sub> 1-10mg/L<sup>(3)</sup> Algae LL/EL/IL<sub>50</sub>

Microorganisms Data not available

Liquid under most environmental conditions., If it enters soil, it will adsorb to soil Mobility

particles and will not be mobile. Floats on water.

Persistence/degradability Expected to be not readily biodegradable., Major constituents are expected to be

inherently biodegradable, but contains components that may persist in the

environment.

**Bioaccumulative Potential** 

Contains constituents with the potential to bioaccumulate.

Hazardous to ozone layer Not classified because this product not contained substances listed on Montreal

Protocol and Ozone Layer Protection Law.

#### 13. DISPOSAL CONSIDERATIONS

#### **Material Disposal**

- 1 Waste disposal yourself or entrust the industrial waste treatment company who obtained the prefectural governor's permission or municipal corporation. Disposal should be in accordance with applicable regional, national, and local laws and
- 2 Do not dispose into the environment, in drains or in water courses.
- 3 For landfill disposal, destroy by fire and confirm cinders agreed to Waste Disposal
- 4 In event of burning this material, ensure to carryout work in safe place with guards in position, and select a method that would not cause any harm or damage to others during combustion or explosion.

**Container Disposal** : Purify and recycle or performs suitable disposal in accordance with the standard of

related laws and regulations. Disposal with remove content completely.

#### 14. TRANSPORT INFORMATION

International Restriction

**UN Class, Shipping** : Flammable liquids(Class 3) / PETROLEUM DISTILLATES, N.O.S. / PG III

Name

**UN Number** 

**Marine Pollutant** Yes. (contain oil.)

**Domestic Restriction** Since domestic laws and regulations shown below are applicable, containers and

transportation methods shall be required to follow each and every regulation.

Fire Service Law: Land Dangerous goods. Group 4 (flammable liquid), Class 2 petroleum, Danger grade III

(water insoluble)

Container: If product classified as dangerous goods, use containers (other than tanker, tank car

and tank truck) for transportation usage, shall meet the Clause 2, Notice Attachment

3. concerning dangerous materials.

Ship Safety Law: UN1268 Flammable liquids(Class 3) / PETROLEUM DISTILLATES. Sea

N.O.S. / PG III

Civil Aeronautics Act: UN1268 Flammable liquids(Class 3) / PETROLEUM Air

DISTILLATES, N.O.S. / PG III

Specific safety measures and conditions for

transportation

1 Caution: Not classified as flammable but will burn.

2 Transport remarkably with containers may not cause friction or agitation.

3 Display signage on vehicle and provide with fire fighting equipment, if and when required to transport more than the specified quantity. Total piled height of vehicle

shall be less than 3 meters.

4 Consolidation of this material with dangerous goods belonging to the 1st and 6th

Classification is prohibited.

5 Abide by other laws and regulations that are applicable.

#### 15. REGULATORY INFORMATION

International Information

**EINECS/ELINCS (EC)** : All components listed or polymer exempt. TSCA (USA) All components listed or in compliance. **METI (JAPAN)** : All components listed or in compliance.

**Domestic Information** 

Dangerous goods. Group 4 (flammable liquid), Class 2 petroleum, Danger grade Fire Service Law

III (water insoluble) : Not applicable

Pollutant Release and

**Transfer Register (PRTR)** 

**Industrial Safety and Health** : Labeling(Delivery of Documents): Kerosine 100%

Law

Dangerous goods: Flammable goods : Not applicable

**Poisonous and Deleterious Substance Control Law** 

**Marine Pollution Protection** 

Law

**Sewage Control Law** 

: Waste Oil Regulation.

: Industrial Waste Regulation.

: Mineral Oil Disposal Regulation. (5mg/L) : Oil Disposal Regulation. (5mg/L) **Water Pollution Prevention** 

Waste Disposal and Public Cleaning Law
